

Product identification

Product	Research Peptide · 10 mg (sample)
Catalogue number	KES-SAMPLE-10
Lot number	SAMPLE-0000
Manufacture date	–
Analysis date	–
Retest date	–
Storage	Store lyophilized at -20 °C, protected from light

Analytical results (8-assay panel)

TEST	METHOD	SPECIFICATION	RESULT
Purity (HPLC)	RP-HPLC, 214 nm	≥ 95.0 %	99.5 %
Net Peptide Content	Nitrogen determination	Report only	10.2 mg
Identity (HPLC)	Retention-time match	Conforms to reference	Confirmed
Fentanyl Screen	LC-MS/MS	Not detected	Not Detected
HPLC Conformity	Duplicate-sample HPLC	Report only	mean 99.4 %
Heavy Metals (ICP-MS)	USP <233>	Within screening limits	Not Detected
Microbial Screen (PCR)	qPCR panel	No growth detected	No Growth
Endotoxin (USP <85>)	LAL kinetic chromogenic	Report result	NMT 0.05 EU/mL

Conclusion

Values shown are illustrative only. No analysis was performed to produce this document.

Batch-specific certificates from our testing laboratory replace this sample as each lot is released.

Authorised signatory (unsigned · sample document)

Date (not issued)

Sample certificate for format demonstration; not a laboratory record.

Kestra Club · products supplied strictly for in-vitro laboratory research use; not for human or veterinary use.
